LET THE LEARNING GAMES BEGIN

Summer Academy 2020

Academy Dates - June 1 - July 10, 2020

Career Internship Dates - June 1 - August 14, 2020

START - With a Brand New Game

We are super excited to be able to offer an all new online learning experience this summer. This will include core courses such as math, science, language arts and foreign language plus mentors to help tutor you through the tough stuff and help you be better prepared to start your next school year.

LINK UP - With UB on Google Classroom

All students have been assigned Truman emails (@truman.edu) which will link students and UB staff to the entire G Suite on Truman's network including email, Google Meet (like Zoom but in Google), Google Classroom and so much more. All instruction, mentor group meetings and the Career Internship Program will happen in the Google Classroom platform.

EARN MORE \$\$\$\$ - As an Intern in the UB Career Internship Program (CIP)

All students will have the opportunity to complete the CIP program this summer and earn much larger stipends than we have been able to offer in the past. Each student will be eligible to earn \$60 per week (times 13 weeks) for a total of \$780 (for June, July and August). Plus there is the possibility of an additional \$75 per week for 6 weeks (if this additional \$450 per student is approved by the Department of Education in the next few weeks). This money will be paid to **each student** who **successfully completes the majority of their online meetings and homework throughout each week**. The money earned each week will be downloaded to debit cards the **following** Friday. If the student does not complete the work as assigned to them throughout the week then no payment will be made for that week. This means that there will be no partial payments. To qualify for the weekly payment the work must be quality work that is completed **successfully** on time and signed off each week by teachers/mentors. We sincerely hope that each student earns all the possible money that is being made available to our families this summer.

ADVANCE TO THE NEXT LEVEL - The Upward Bound staff look forward to spending the summer with you and your family as we work to advance the skills of the students so they will be prepared college enrollment and completion
